

POSITION: USTSF PRESIDENT
CANDIDATE: CARLOS HERNANDEZ

I would like to thank you for considering me for the position of President of the United States Table Soccer Federation.

Foosball has been a part of my life for the past 30 years and I have grown to love it unconditionally. I started playing in 1978 in my home town of Pasadena, Texas. Within a few years I became involved in local tournament promoting and directing, which soon after led to working on the state and national levels as well.

During the past 30 years I have been active in literally every aspect of foosball and would like to take the knowledge I have gained from this to benefit all areas of the game. My involvement in promoting the players and the sport of table soccer has already played a part in increasing the player base, as well as making our current player base have the best experience possible. I firmly believe in promoting the sport and including everyone around the country in what is going on.

I have enjoyed a very unique position in table soccer through the years, as I have had the privilege to work side by side with manufacturers, helping to improve their tables, and promoters on the local, state and national levels to increase player participation. I have also been very active with the majority of the North American player base, listening to and understanding their needs. All to improve the game for everyone.

My hard work, decades of experience and dedication to the sport is unquestionable and has proven to be an invaluable asset to the game. Recently I have pioneered innovative and ahead of the curve promoting and marketing ideas that have increased awareness of the game and improved the tournament experience for all those involved.

As I have grown, I cannot deny the fact that foosball is and has been a major part of my life, providing me with experiences I may never have been a part of otherwise. It has also provided me with what I consider to be the best gifts I could ever have imagined, those people I call my family, and my friends. Without foosball, I would not have met all the wonderful people that I love more than anything. Foosball has been my life, and the friends I have made from it will surely be the ones to someday carry me to my grave.

Some would say that I have been the hardest working person in foosball. My drive and energy comes from my heart and from my love for the players and for the game. My devotion to the sport is unmatched and as an entrepreneur, I have the time to dedicate to it to get things done. With my background in marketing and promoting and as President, I would have access to more tools that would allow me to become even more of an asset to the players and to the sport. Therefore I would like to be voted as Your President, so that I may further assist in promoting this game we all love.

Thank You For Your Time and Consideration and I hope to see everyone again soon!

Your Friend,
Carlos
